

In the autumn of 1996, Düsseldorf-based interior designer Heike Falkenberg asked FSB to recreate an old handle design for a renovation job. Using the sketch she submitted, FSB's Development unit milled a demonstration model out of the FSB 1076 handle. It was recently re-interpreted by giving it a straight-cornered rose.

Recommended rose/backplate variants

EN179

Design: Heike Falkenberg

 EN 179 model: FSB 1031

* only in Stainless Steel
