

Planet F140 flat threshold

Thermally separated | → 138 x 8,5 mm

DOOR MATERIAL

Main features

- Thermally broken flat threshold
- Optimal transition between inside and outside
- Barrier-reduced height
- Stable and can be ridden over
- For renovations and new builds
- Adhesive mounting
- An even block surface for all Planet drop-down seals for an optimal sound protection.
- With four adhesive cement grooves for an enlarged surface to make sure an optimal bond
- In combination with Planet X3 guaranteed impermeable to driving rain

Versions

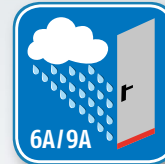

- Surfaces: silver anodised EV1 (aluminum)

Assembly

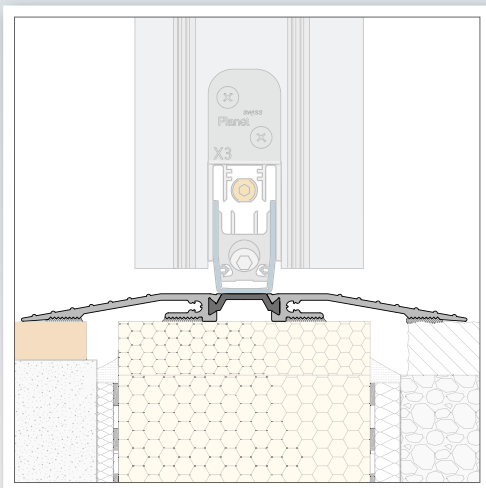

Affix onto a surface free of dust or grease with normal building adhesive

Door types with Planet F140
