

MEDIATOR® lock, wooden and steel door version

Product description

The MEDIATOR® lock in its full leaf version is available with different backsets and a comprehensive range of accessories.

Overview of Advantages

- Automatic locking system: Bolt and latch are blocked, therefore higher level of security
- Mechanical follow up control between double action latch and control latch
- Integrated panic function via internal door handle
- Changeover function for unlocking with a key from the outside

Scope of delivery

- 1 lock
- 1 reducer

Note

- MEDIATOR® locks have a bolt through the handle and thus require front door furniture (inside handle or panic push bar, outside knob or push bar).
