

Maintenance spray 8511

Product description

- Fully-synthetic creep and precision oil
- Free from mineral acids and resin
- Optimum sliding effect - grease-free
- High corrosion protection
- Physiologically safe
- Odourless and colourless
- Environment friendly
- Approved in accordance with LMBG/WGK1
- ASSA ABLOY recommends treatment of mechanical and +CLIQ locking cylinders with IKON maintenance spray after 5000 locking cycles, but at least twice a year

Scope of delivery

- 1 packing unit of 10 spray cans

Ordering Information

- Please note that one packaging unit contains 10 cans of maintenance spray!
- Hazardous good: maintenance spray is a hazardous good due to its bottling with aerosol as propellant and can therefore not be shipped with other goods in a shared outer packaging. Each shipped item receives the labeling UN 1950. Subsequently shipping cannot be processed via air freight or express.
